

# Thank You,

## SAN LUIS OBISPO COUNTY

For passing Measure L, one year ago. We promised to use the \$275 million bond to address Cuesta College's longstanding facility, infrastructure and technology needs.

Today, we are excited to show the community how we've made good on that promise.

The bond is currently in its first issuance of \$75 million, which went into effect in the spring of this year and will end in 2018. Here's a look at where we are today.

### San Luis Obispo Instructional Building

Breaking ground in 2016, the new 32,000 square-foot classroom building will house the displaced classrooms and faculty offices due to modular removal.

### Technology Upgrades

Implementation upgrades to modernize college-wide technology have begun and will continue throughout the first issuance.

### Aquatic Center

In December of this year, the research and design for a complete replacement of both pools on the SLO Campus will begin; implementation is slated for the second bond issuance.

### Repairs

Roofs and HVAC units have undergone replacement and repairs on various buildings on both the SLO and North County campuses. Additional repairs will continue in future bond issuances.

### Interim Housing

State law required the removal of 26 modular buildings; many services are now housed in new temporary structures on both campuses.

### Debt Retirement

The District has repaid one of the Certificates of Participation (COPs) used to supplement inadequate state funding for previous building construction and to make urgent and necessary improvements and repairs to aging facilities.

### North County Campus Center

Breaking ground in spring 2016, the 43,000 square foot campus center will hold all the student services that are currently in various temporary buildings.

*Thank you, San Luis Obispo County.*

For enhancing our ability to provide excellent education to the community.
