Two Groundbreaking Events Scheduled at Cuesta College

Cuesta College is celebrating its two new Measure L-funded buildings with two groundbreaking ceremonies in the month of March and is encouraging the community, faculty, staff, and students to take part.

The District will host a groundbreaking ceremony for the new San Luis Obispo Campus Instructional Building on **March 11** at 10:00 a.m.; complementary parking will be available in lot 5. On **March 24**, a groundbreaking ceremony for the new North County Campus Center is scheduled for 10:00 a.m.; complementary parking will be available in lot 10. The ceremonies will take place at the sites of the new structures and include comments from college leadership, a look at what's to come, and refreshments. Those planning to attend are encouraged to RSVP by March 10 to Jessica_strano@cuesta.edu or (805) 546-3279.

“These groundbreakings represent the beginning of two of the most visible outcomes of the first issuance of Measure L,” said Cuesta College Superintendent/President Dr. Gil Stork. “We look forward to sharing this exciting next step with our community, without which none of this would be possible.”

San Luis Obispo Campus Instructional Building. The 32,000 square foot, two-story structure will house eight high-capacity, multi-discipline classrooms on the ground level, capable of serving up to 45 students each. It will also contain one forum-sized classroom, capable of serving 90 students. The second floor will be comprised of more than 40 offices, staff lounges and meeting rooms. The new structure will sit in the southwest corner of the campus and is housing programs that previously operated in modular structures. Construction will officially begin in early April, with a projected completion date of Fall 2017.

North County Campus Center. Located on the Paso Robles Campus, the 43,000 square foot, two-story structure will also house programs and offices displaced by the removal of modular structures. Located in the northeast portion of campus, the new structure will include student services like admissions and records, counseling, financial aid, student life and leadership, health center, bookstore and the cafeteria. The college plans to start construction in late April with a completion date of Fall 2017.
