

**CONSTRUCTION UPDATES & ACTIVITIES**

*Week Ending July 13, 2018*

**1000s Complex Roof/HVAC Replacement**

**Work this week:** The mechanical contractor has modified the existing roof curbs, extended all the roof vents, and installed the new condensate, roof hatch, and drains. The roofing contractor had all of the new roofing material delivered on Friday and is scheduled to begin roofing activities on building 1300 on Monday morning.
