

CONSTRUCTION UPDATES & ACTIVITIES

Week Ending October 13, 2017

North County Campus Center

Work this week: Data and power cables are being pulled throughout various locations in the building. Installation of the curtain wall at the southern elevation has continued, and tile preparation and installation is scheduled to begin. Site-finish grading, road base, site electrical, and site concrete are ongoing. Contractors also continue their installation of the drywall, insulation, acoustical ceilings, HVAC, electrical, painting, communications, data and fire protection on the 1st and 2nd floors.
